What is BusdPay

BUSD PAY is a Play to earn mining farm built on the Binance Smart Chain blockchain. This is an open smart contract with a unique mathematical model based on the successful model of mining bitcoin and other cryptocurrency mining.

Our goal is to create a large international community and further develop the BUSD PAY ecosystem in the cryptocurrency market, where all early community members will be generously rewarded when launching new products.

Jackpot Pool

Thanks to the Time Pool mechanism, you will no longer have to worry about being the last player to buy miners. How it works: 1% from each purchase of miners, as well as 1% from each sale is transferred to a Jackpot Pool smart contract. If you bought miners and no one made any purchase within 60 minutes after that, then the entire Time Pool balance will be automatically transferred to your wallet address. It's never been more profitable to be last!!!

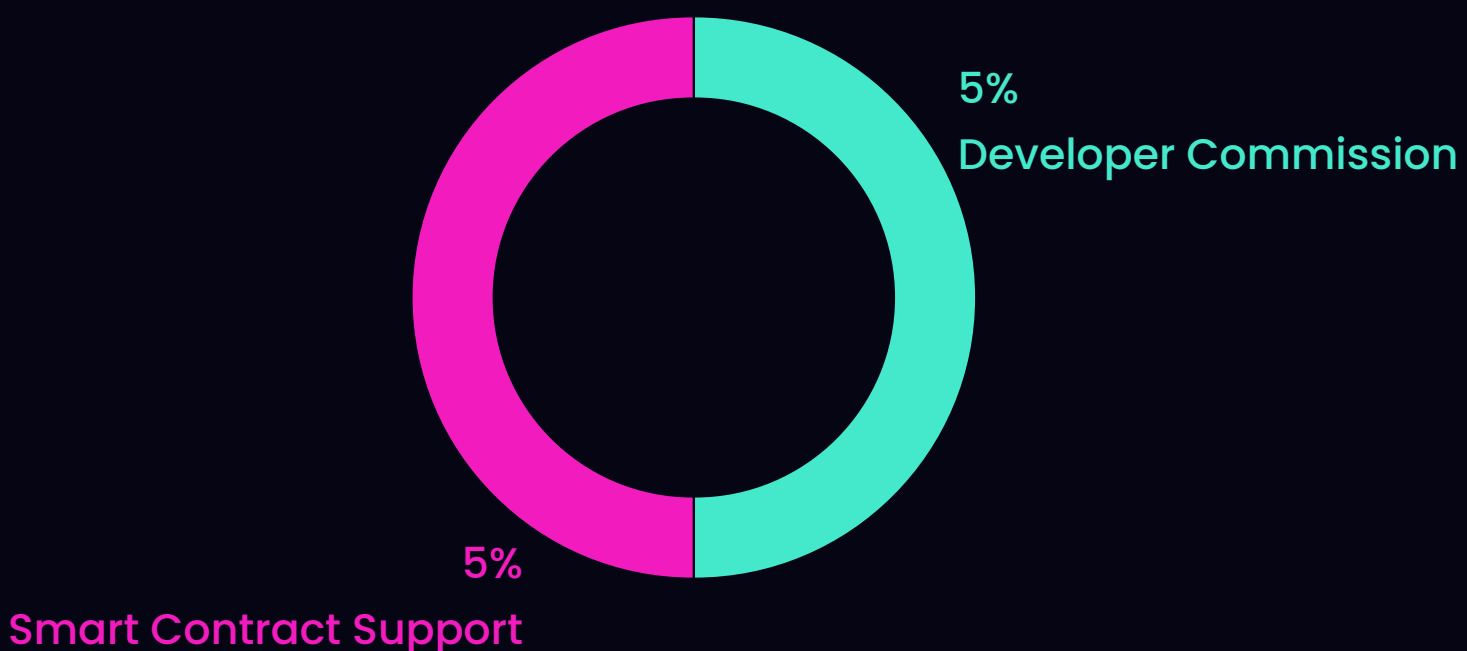

Example The total turnover of purchases and sales is 100,000,000 Busd, this means that 100,000 Busd will accumulate on the Time Pool contract balance. If no one bought more miners within one hour of your purchase, then 1,000,000 Busd will be automatically sent to your wallet address. This will be an exciting race. Check your current contract balance by clicking [here](#) BALANCE TIME POOL.

Ambassador program

One time return of 10% of principal investment value will be added in “Referral Reward” section upon referral investment which can be withdrawn directly as referral rewards.

Fees

There is a small commission of of 10% which 5% is the developer commission needed to support the project and active marketing, and 5% go to the smart contract support fund, in other words, this fund replenishes the smart contract and maintains its balance. No more commissions!

Strategy

There are many strategies, but the most proven strategy in such projects is the, when users reinvest 6 times a week and collect the reward on the 7th day. Experience shows that in this way the project will quickly gain momentum and draw more and more attention to the problem of the disappearance of miners! Reinvest is available from 35\$ BUSD!

FAQ

What is BusdPay?

BusdPay is an advanced BUSD mining platform where you deposit BUSD into the protocol, and earn BUSD back at a daily 10% rate. This rate is dependent on multiple factors. When you start earning BUSD, you can either re-mine (compound) or claim your rewards through our dAPP.

How much can I earn with BusdPay?

The daily percentage is up to 10% which is dependent on several factors such as how often people are claiming rewards, the time of day you re-mine or deposit, and TVL fluctuation. BusdPay has many special features that maximize the rewards and sustainability for everyone.

Can I get my initial back?

BusdPay is a locked rewards pool. You earn your initial back over time through the rewards in the dApp.

FAQ

How do referrals work?

If you refer a friend, you will earn 10% of the BUSD used to buy in referral rewards.

How Jackpot pool works?

Thanks to the Time Pool mechanism, you will no longer have to worry about being the last player to buy miners. How it works: 1% from each purchase of miners, as well as 1% from each sale is transferred to a Jackpot Pool smart contract. If you bought miners and no one made any purchase within 60 minutes after that, then the entire Time Pool balance will be automatically transferred to your wallet address. It's never been more profitable to be last!!!

Example The total turnover of purchases and sales is 100,000,000 Busd, this means that 100,000 Busd will accumulate on the Time Pool contract balance. If no one bought more miners within one hour of your purchase, then 1,000,000 Busd will be automatically sent to your wallet address. This will be an exciting race. Check your current contract balance by clicking [here](#) BALANCE TIME POOL.

FAQ

What are the fees?

There is a 10% fee on BUSD deposits and withdrawals. These fees are used for the improvement and sustainability of the BusdPay ecosystem.

Standard BSC network gas fees are required for EVERY transaction including deposits, claims and re-mines/compound.

Is this sustainable?

Yes, as long as there is TVL in the contract then there will always be rewards. BusdPay is the latest development in miner contracts and has the following features aimed specifically at sustainability.

Can I track my referrals?

Yes, the BusdPay miner shows your total referral rewards and your referral count. All other data and transactions are publicly available on BscScan.

FAQ

What happens to my earnings if I make a new deposit?

If you have earnings that have been unclaimed these will automatically be compounded when you make another deposit.
